

Implementation:

- Allocation of human and material resources;
- Select the military who have more experience in territorial tasks, familiar with the various communities and existing knowledge of foreign languages;
 - Formation of a team dedicated exclusively to the project;
 - Ability to meet the needs of each community and implement the program “safe residence”, based on Proximity Policing and Community Safety;
 - Creating a culture of vigilance among neighbors
 - Georeference and assigning identification numbers (where there is no number of police) to single houses, to facilitate their location and easy access by means of assistance..

Description:

- The program was created to address the growing feeling of insecurity caused by the increasing burglaries within the residences in Aparthotels, Resorts and Vacation and luxury homes, scattered and isolated, located in the town of Albufeira.

- It was created for this project affects a team that wants to put into practice the following strategic lines:

- Targeting human and material resources, on an exclusive basis, to prevent crimes against the communities living in isolated locations;

- Direct and make regular contacts with Aparthotels and Touristic Villages to collect information related to flows of occupation, with the aim to intensify patrolling in critical times and places.

- Dissemination of safety advice by distributing leaflets in various languages (English, Portuguese and German);

- Gathering information on possible movements of criminal suspects;

- Provide a direct contact of the team, allowing service 24 hours a day by a military expert on the region and foreign languages;

- To thereby direct the patrolling nearby, made possible by GPS and equipment;

- Personal contact with each of the local residents with some regularity.

Objectives:

Targeting human and material resources, on an exclusive basis, through patrolling, allowing rapid intervention of the project and available resources, enhanced by targeted patrols of the territorial stations.

Exchange of information among the population and the Team "Home Safe" project leaders;

Implementation and monitoring practice among neighbors;

Information for preparing the map of the region, as well as the location of all homes georeferenced according to the project by developing a "Residence Card".
